PROFILE Business leader combining 8+ years of client-facing technology and delivery advisory (BCG, Deloitte) with hands-on strategy and applied AI at Xero.

PROFESSIONAL EXPERIENCE **Senior Strategy Manager** *2025 – present*
Xero *Melbourne, Australia*

Drove AI adoption across Xero as the program lead for its inaugural Citizen Builder Program. Approx. 30 employees from across Xero departments fully-dedicated for three months towards reimagining workflows through AI

- Designed and led Xero's inaugural Citizen Builder program. Identified a pathway to an incremental 7-figure savings opportunity through targeting workflows that could rationalise legacy software and redeploy capacity towards higher-value work.
- Facilitated learning sessions for Xero senior leaders, including Board Members, and a 500+ person hands-on training session in Denver, showcasing the power of re-usable agent skills to reimagine the way we work.
- Sized the business case for a new human-assisted direct sales motion for high value Xero customers as part of a regional expansion strategy. Identified an 8-figure incremental ARR opportunity over multi-year horizon by benchmarking global sales peers, modeling conversion and retention lift curves.
- Ideated and created StratOps Skills - Xero's first AI plugin published to internal Claude enterprise marketplace. Other internal Xero teams followed, growing Xero's skills ecosystem to 80+ skills deployed for shared use across the company.

Senior IT Architect *2021 – 2025*
Boston Consulting Group (BCG) *Asia Pacific*

Specialising in digital transformation and IT architecture, Brad's work with BCG has spanned across several mission-critical industries including: financial services & insurance, healthcare and public sector. Operated as a strategic orchestrator and client-facing delivery lead in fast-moving, multi-stakeholder environments.

- Led the data, technology & supply chain workstreams as part of a multi-year ERP transformation program for a Multinational MedTech company. Defined the target state platform architecture, and high-value use-cases that could expedite up to \$3M+ of early benefits realisation within the client's first year of ERP implementation.
- Defined the functional footprint of an Electronic Health Record (EHR) platform for a Multinational Private Healthcare Provider, and conducted a thorough evaluation of prominent EHR vendors (e.g. Epic, Cerner) to support our client to identify a preferred vendor.
- Orchestrated an agile squad of experienced client architects to design the modernisation pathway for a Multinational Insurance Provider's legacy claims platform. This involved planning and sequencing \$40M+ of investments to realise the client's target state technology & capability architecture over three years.

- Co-led the Customer Data Program for the largest bank in the Philippines. Partnered with the Head of Data to deliver a single customer record for 14M+ customers through a full redesign of their Master Data Management (MDM) platform (Informatica)

Senior Consultant, Technology Strategy & Transformation 2018 – 2021
Deloitte Consulting Melbourne, Australia

Delivered business-aligned IT strategy and enterprise architecture across transport & logistics, higher education, mining and retail.

- Led the enterprise architecture workstream on a \$40M+ Workday ERP implementation for a \$1.5Bn+ Australian university — produced end-to-end architecture design across a 200+ member project team
- Designed IT separation strategy for a global \$8Bn+ transport firm — secured buy-in across global infrastructure, application, and commercial leaders to sequence the separation of 400+ applications
- Built and launched a GTM sales intelligence dashboard in Tableau adopted by Deloitte's regional leadership — designed from first principles, enabling proactive market prioritisation across pipeline and revenue operations

Academic Tutor, Melbourne School of Engineering 2020 – 2021
University of Melbourne Melbourne, Australia

Facilitated tutorials within the University of Melbourne's Masters of Information Systems programme.

- Tutored 300+ students across Professional IS Consulting, Information Systems Strategy and Enterprise Applications & Architecture.

LEADERSHIP & SERVICE

Non-Executive Director, Community Radio Station 2020 – 2024
Student Youth Network (SYN) 90.7 FM Melbourne, Australia

Appointed non-executive director for a \$700K+ not-for-profit community radio station supporting 200+ members across broadcast and training.

Non-Executive Director, University Student Union 2016 – 2018
University of Melbourne Graduate Student Association (GSA) Melbourne, Australia

Elected association secretary for a \$2M+ not-for-profit representing 30,000+ graduate students. Re-elected 2018.

EDUCATION
